“ *Our parents and grandparents have known each other since before we were born, so I guess in a way we have also. I loved how we seemed to always move within minutes of each other our whole lives until we became adults and started families of our own. I treasure all the memories we made, sleepovers with Annie & Bubba, trick or treating, carnivals at \"the beach\", no matter how old we were or where we were or what we were doing your bright light always made sure we had the time of our lives. I'm sorry we didn't get to talk more these past few years, but you will remain in our hearts forever. <3*

CT

“ I remember the day you were born, your first day of school, your first tooth, when you lost your first tooth, your first love and losing your first love, I was present for the birth of your first child and then, something happened, something that changed the course of our lives forever we just didn't know it at the time and thought quietly to ourselves, ,\“we will be together again one day\” but that day never came and that will be a regret I carry with me on the remainder of my journey here on earth for your journey here is over but your memory will live on in my heart and soul till the day my journey here ends and I join you again.
