“ Ashley was a beautiful child, her brother and mother miss her so much. We miss her laughs, we miss her little Pinky's that were curved because of Mom, I miss her walking, dancing and talking with me(her mother) I miss her music, I miss everything about my daughter. She will never be replaced, I miss her cooking, her kindness and her love. Those who gave money I thank you kindly and please light those candles for our family, thank you
