“ *I first met Diane's Mom JoAnne in 1972 when I went to work for the phone company. A couple years later, little Diane had to go through chemo and we all rallied round to create her a cheer basket. Diane was the survivor of multiple cancers over the years and she has always held a special place in my heart because she was a fighter. She's been calling me Momma Pat for so many years. I will miss her wonderful messages, beautiful smile and great personality. Rest in peace Diane, you are now reunited with your Mom and Grandma in heaven. Love you sweetie*

“ *I met Diane through work and she became a huge blessing in my life. She taught me about perseverance. I counted her as a true friend as we enjoyed working together daily and outside of work shared some of the same interests. In one word I describe Diane as \"feisty.\" I will always cherish the time we spent and our friendship.*

“ I was so sad to hear of Diane's passing. We worked together for a few years (2011-2014) and I loved being around her. Her quick wit, kind heart, and loyalty showed in all she did at work. I loved our group lunches, happy hours, and the occasional karaoke. She also made my job easier with her amazing knowledge of numbers and finance - and she helped our program serve people with disabilities by navigating the complexities of federal grants and their fiscal resources. I hardly understood this part of my job - and Diane made it possible to even do it. I'll never forget Diane's smile and positivity even as she battled her illness. And every time I'd talk to her, she'd no sooner be two sentences in before talking about her beloved Samantha, her pups, or her parents. It was clear she loved them all fiercely. I am thinking of all of her family as they mourn this big loss. Thank you, Diane, for the memories, the laughs, and for making Ben (my son) the most lovely baby blanket we will always treasure.

“ Diane was a kind friend to me early in my life. We met at my first job out of college. It was a crazy office but she was always there for me.
