“ *Nanny at one of my birthday parties when I was little. I always loved this picture. She was being bashful for the camera. Giving a little smirk.*

“ *Nanny meant so much to me. She started babysitting me when I was just 2 weeks old. She watched me and took care of me all the way through elementary school. I've always stayed in touch with her because of how good she was to me and how much she meant to me. I made sure to visit her as much as I could and definitely every holiday and I know it meant a lot to her. She was like a 2nd mom to me and will always be my family in my eyes. She always was thinking of others and gave unconditional love to me and my kids. She lived a long fulfilled life but I know she is at rest now with Poppy and Buddy. Nanny I love you so much. I will always cherish our memories together. Tootaloo for now.*

“ *To my loving Nanny that helped shaped me into the person I am today. Your love for me will always stay in my heart and the memories of you are overflowing. I am so blessed to have had you in my life for the passed 46 years. Although, I will miss you always and wish I could give you one more hug, just knowing you are now with pop and living eternity together brings peace to my heart.*
