“ *We are so heart broken to have just learned of your passing. I am sitting here reflecting on when we met, back in the 80s. Mike and I weren't married yet and we all had so many laughs and crazy adventures together. \r\n\r\nThe thing that impressed me the most was your work, you were on the forefront of Aids Education., doing tons of research, spoke at large conferences around the country for you boss. It was truly amazing and I was truly honored and proud of you.\r\n\r\nRest in eternal Peace dear Charlotte, you will be missed here. Watch over your family as it will no doubt continue to grow in your memory which is the way to keep you with us forever. There are too many \"if only\" in our hearts and brains right now. Rest easy now Charlott we are here for your children always and you knew we love them dearly.\r\n\r\nMike and Susan Erat*
