

Cynthia Anne Ciarpella

November 28, 1956 - November 14, 2024

My wonderful mom Cindy Ciarpella (b. November 28, 1956) passed away on November 14. She was in the loving care of myself, friends, and family who never left her side and saw her through her last days. Cindy embodied a deep compassion and uncommon sense of responsibility toward people and animals; we have all been made more sensitive and kind for having known her. Her humility and generosity were accompanied by a pragmatic toughness and sense of humor, ever present. As much as she would jokingly announce her fears to doctors about medical interventions proposed to sustain her life, she endured each one because of her true will to live. This tenacity was evident all the way to my mom's last breaths.

Instead of flowers, please consider fostering a cat in need or donating to the Feline Rescue Association of Baltimore.

“Cindy was my sister and I was the luckiest person in the world because of it. She loved animals and would stop the car to pick up a stray (if we could catch them) and take it to the vet. She was on the board at Feline Rescue Association but as she got sicker she just couldn't do it anymore. But she was still posting about cats and sharing up until October 23rd I think was her last post. And 3 weeks later she was gone. I don't know about you but that's what I call dedication. Since this was her true dedication and passion I would like everyone who reads this to send money to Feline rescue and in Cindy's name would be great but not necessary. Some people want all the glory she was the complete opposite. It actually embarrassed her when you would say things that she had accomplished or even committed herself to in her life. She also had a daughter named Lauren who is the most special person in the world. We her were her caretakers but Lauren was her life. She was the best mother in the world. Since Nov. 14 the world is a much sadder place for me but she wouldn't want that for me and especially for Lauren. So we will try and keep our heads up and our tears less but it will be hard. And we also have a brother Richard who was there to take her back and forth for her therapies and tests through the 8 years to the day that she was told she had cancer. And one of those doctors gave her 6 months so that gives you a little insight for her will to live. Anyway all of our hearts are broken and I guess I'll end it on that.
