“ Favorite memory ever is coming home from Skins on Friday night and seeing you knocked out but sitting straight up with ur head thrown back sleeping with your mouth wide opened. You had a baby bottle 🍼 in one hand and a dirty diaper in the other hand with burping rag thrown across your shoulder with Shaniya sleeping peaceful right beside you on the sofa. Thanks for being the best Friday night babysitter and the best little cousin I could ever have I love you DBoy 😊 and miss you more than words will ever express Love Hita

“ Darren I think of you so much especially when I listen to the eclectic music that you and I both loved and knew word for word. I pray that you know just how much I loved you and what you truly meant to me not as a cousin but more like that of my baby brother. You're one of the most intelligent and caring people that God could of placed in my life and my kids lives they miss you and so do I but I know that you are finally at peace and reaping all the love that you have always craved and deserved. I love you cousin and I always will you will forever live in my heart 🙏 Love Always-Your Big Cuzn and Sister- Hita
