

Dennis Alexander Levanduski

April 9, 1963 - September 24, 2022

Dennis spent the majority of his life in Oxon Hill and Waldorf, MD. From an early age, he had a passion for computers and technology, which he turned into his career working for companies such as ORI, Children's National Medical Center, Micronex, and Applied Ordinance Technology (AOT).

He is preceded in death by his father, Louis, and sister, Ellie. He is survived by his wife Kathy; children Vicki (Jon), Megan, Alex (Nicole), and Katie (Josh); four grandchildren Matthew, Gregory, Annabel, and Finley; his mother, Rita; his sister, Gloria; and several nieces and nephews.

Per Dennis' wishes, a formal visitation and funeral service will not be held. He requested anyone wanting to honor his memory make a donation to the Humane Society of Charles County or the Hospice of the Chesapeake, who helped care for him in his final days—or to eat a Maryland blue crab and raise a claw to him.

Tribute Wall

“ *I have so many great memories with Dennis going to college and carpooling to work in DC. We sang silly songs and flew kites on the mall in the summer. Truly a special friend who holds a special place in my heart.*

“ *Mr. Levanduski was a wonderful OM coach and he brought out the best in every team member. He instilled in us that every problem had a solution. This lesson still sticks with me today.*
