“ *I'm one of Dennis' Air Force buddies. Our first meeting was as T-38 simulator instructor (Dennis) and student trainee (me). We soon became friends and have remained friends ever since. Dennis was a demanding instructor but his critique was always given in a professional manner. He had every reason to be proud of his many accomplishments. My wife Barb and I were fortunate to have been introduced to Dennis' family. \r\n It is sad that he is gone but I will always have fond memories of our experiences together. \r\n With respect, \r\n Hank Vehige; USAF Pilot; Commercial Air Line Pilot*

“ *Dennis cared about people. He often took time out of his busy day to visit my office and walk around to say good morning to each person, and would leave them with 'have a nice day.' His kindness meant a lot to us. Dennis would also talk about upcoming trips with seeing his family and his eyes would gleam with excitement of soon being with them, in particular his grandchildren. As for work, it was true love for him. I clearly remember the day bumping into him in the hallway where he said 44 years today! We high fived! The office isn't the same. No longer having his visits or hearing his voice is hard. I am grateful for his friendship and kindness. May he rest in peace.*

“ *My uncle Dennis and his family visited us in Brantford, Ontario, Canada regularly through my childhood, as part of their trips to see family here, up North. I will remember Dennis for his good humour and his kind treatment to my sister and to me.*
