“ Uncle Don,

You are the strongest man I know. No matter the challenge, you faced it with a corny joke, a goofy laugh and a smile on your face. We all need to be a little more like you! Thank you for treating my siblings and I like your own, you always made sure we all were taken care of and that will never be forgotten. One core memory for me was in 5th grade, you took me to the movies to see Crocodile Dundee and shopping at Claire's for my 5th grade graduation accessories, you even got me a camera and a limo for my friends and I to go to graduation in style, you did the things my dad wasn't able to do and that will forever hold a special place in my heart. I'll miss playing phone tag with you for weeks at a time and hearing you talk to your giggle box Zoe and us reminiscing about the crazy things my mom talked about that day haha. Life will not be the same without you, sometimes I wish you could of out lived us, been that brain in the robot body like we joked about but I know you were in pain and now your with your best friend and that brings me some peace. Until we meet again. I love you much ❤️

“ Uncle Don. Man. It’s so hard to believe that you are gone from this world. There are days where I’ll think to call and check on you and realize you are on the other side. Those are hard moments. Even though you experienced much more than most people in your lifetime in regards to health issues, you never ever made yourself a victim, and always took a very zen like approach to it all. When speaking about everything that was going on you’d often respond with something like, “what else are you gonna do?” You were a fighter. You were the kindest of hearts. And you always thought of others. I know you and Dad are up there jamming out to classic rock while you look over those that remain here. It’s good to know your eyes are watching us. Love you forever.

“ Uncle Don, you were such a loving and giving person. I'll always remember when you came to San Antonio one Christmas to surprise MM and how happy she was to spend that time with you. You always found ways to make all of us feel thought of during Christmas, Birthdays, and Graduations, even when you couldn't be there. I'll miss sitting in your apartment during family trips to Maryland, watching Gold Rush, MASH*, NASCAR, a sports game, or Perry Mason. It's the little things about you that I will always remember. Love you always and forever, Gruncle Don.

“ My dear Uncle was small but mighty. He fought every single thing that came at him, and in the past 10 years he faced a lot of challenges. We almost lost him in 2020 but he fought his way back as it was just not his time to go. His determination to live is truly an inspiration to me. I will never forget how kind and generous he was to everyone he knew. He would absolutely give you his last dime if you needed it and was always there to help no matter who you were. I will miss you so much Gruncle Don and hope that you are spending eternity with everyone that we've lost before you. Love you with all my heart, Kari ❤️

“ Don, you were a Great and Best friend. Honored to be friends for a lifetime. Started hanging out together when I was about 19. Don was 3 years older. Only lived blocks away from each other. We shared the love of muscle cars, Orioles and Ravens. We also, were on a bowling team in Glen Burnie. Pretty-good, too. When my family and I lived in WPB, Florida. He would come and visit. We would go to O's pre-season games in Ft. Lauderdale. When we spoke on the phone, he would always ask how my family was doing and to say hello. He's a caring and Great person. In the past 5-6 years, we would keep in touch with one another. More often due to his health issues and that both of us being Amputee's. We are missing you already, Clark-Bar. Love, The Klukasofski family, Jerry "KLU", Nicki, John and Aaron.

“ Don, I have always been so proud of you for the person you are. When we were young you were so much help to mom. You have always been a wonderful brother even after a night out with Wayne and you forgot where you parked my car. That was ok we found it the next morning. I'm still not sure how you were such a good bowler with only one eye open most of the time. We managed to take care of Mom & Mac together when they needed us most. You have always had so much thoughtfulness and generosity for everyone in your life. Wayne and I were so lucky to have you. Thanks for being the best gruncle Don to all the younger ones in the family. Be at peace you will always be loved by us. I find comfort in knowing you are with our much loved heavenly family.
