During this time Jackie assisted in raising funds to support research for a cure and sending kids to MDA summer camps.

Jackie enjoyed being the cool Aunt to her nieces and nephew. She had a strong love for her dogs that were a critical part of her life. “ I'm still in shock and disbelief. Jackie, you were more than a lifelong friend. You were family to us. So many memories from us both being little kids to being adults and having kids of our own. Christmas will never be the same. So many good times at the Christmas night parties at my parents house. I will treasure all of the memories! May you R.I.P. until we meet again. You will be greatly missed. Gone way too soon! \nLove and hugs to all of Jackie's family. \n~ Nancy and Craig Miller

“ I met Jackie at CWLC where we worked as co-teachers in Pre-K. We had lots of fun in the classroom. She laughed easily with the children, always strived to encourage their growth, and was up for any project I suggested, which was often a messy one. I can remember the joy on her face working with the children. But, that joy cannot match the joy she had in welcoming Kourtney to the world. Despite the challenges, she was happiest being a mom. Jackie adored her family, including the fur babies.

“ Jackie was my childhood neighborhood friend that brings many fond and wonderful memories. A time when life was new and in the beginning stages of life. I remember Jackie sweet and so inviting. I loved playing kickball in the street with all the other children, which was nice to have another girl to play sports with around all the boys. I remember her happy all the time, but when she heard the sirens, even if in the distance, she would cover her ears and run fast to her house. I remember hated those sirens because we would be having fun and now our play was interrupted again. There are so many memories as if it was like yesterday. Have very fond memories of the Garvins, Jackie, Jamie and Miss Kay. I was sad when they moved but so happy when the family would come over to the Neveroskies so i could play with Jackie again. There were summers when Miss Rosie would watch Jackie and Jamie and Jackie decided to have yard sales. We would find toys we didnt want or was broken and set them up under Miss Rosies carport. Jackie had a fantastic idea to get on our bikes and ride around the neighborhood yelling \” Yard Sale Yard Sale 633 Cadbury drive odenton md 21113!!!\”. When i look back, even though i was a year older, i followed Jackies ideas because they were good. She was a leader who was bubbly and fun to be with. She really was a neat childhood friend. I regret not allowing these memories to reach out to her as an adult and just catch up on old times. Although friends on facebook I can see just how lovely she is as a wife and mother to a beautiful daughter. Her memory will live on in me even if it was the beginning of her life. Praying for her family and friends that were very close and loves her dearly.
