HE

“ To Jim's family. Only today did I learn of Jim's passing. He taught me a lot, some of it had to do with endocrinology. We had great times together. I currently have several of his bird and scuba photographs hanging on my walls. I deeply regret not staying in contact.

Hugh English - March 15, 2020 at 11:34 PM

EO

“ To the family of Dr. Hammond, I just found out about his passing. He was my postdoctoral mentor and I have wonderful memories of him. I pray that the good Lord will rest his soul in eternal peace and comfort you. So sorry for your loss.
