“ *I am just beginning to cry and mourn for you little brother. The pain that I feel can't be explained at all. I don't know how to explain what is happening inside of me now but if I could talk to you I would explain it like this something is missing. Even though I am smiling on the outside my heart is breaking on the inside. People move on and it seems as if they don't think of you anymore but I know they do. I get mad some days when I think about you being gone but I don't wish you back for nothing it is too crazy here and you deserve peace. Jason I've tried many times to dream about you. I ask God to let me see or hear your voice something to let me know that you are okay. I just know that I miss you sooooo much...*

“ Jason there is not a day that doesn't go by when I don't think about you. I still wake up and think it is just a dream. The other day while riding up the street I thought I saw you but what was I thinking. I know what I was thinking I just wanted to believe you were not gone. Jason I miss you brother/cousin. You were my brother first but cousin by blood
