“ I remember John most from our days at Glen Burnie Park Elem. I don't have a specific memory of him unfortunately but I just remember him always being there. He was quiet and laid back. It's sad to have lost touch over the years but I have had the pleasure of seeing Terri's posts. I know he loved with his whole heart and was just a great guy. Those blue eyes and blonde hair and if I remember correctly lots of flannel shirts. Regardless once a friend always a friend who will always be cherished, thought of fondly and missed by so many. \n\nStephanie Phelps
