“ Kenny I spoke to you at the hospital days before you died You said you loved me and I said how much I loved you. You once told me you would never divorce me and you kept your promise. I know you are with the Lord. I came from Virginia to Maryland to get you but was not able because of papers signed day before you died while under medication. I know this is not what you wanted because you told me many times about your plot in Arlington National Cemetary and you wanted that. Love,wife Marcella

“ Now you are with your sister Connie and mother Mary Lee and your father Jack Burruss. Your were Never a Legal Turner and neither is your daughter Tina as well as your many other children. Sorrells was the last name of a woman Mary Lee had babysitting you when you were a child. Don't know why your name says Sorrells. You were born Kenneth Richard Burruss. And always will be. And so are your kids also Burruss. The truth needs to be told. Tina's mother Junita knows but won't tell her daughter.
