“ Q: *What will you never forget about Kimberlea?*  
A: *I've never forgotten that one summer day Kim and her best friend Donna Miller were teasing me. They told me that girls have something that boys don't. We were in the back of Michael White's house. So I asked them what was it? They said that they have periods. I'm like, what in the world is that? Then they told me that they have them once a month. Me being about 12 and naive, had no idea what they were talking about. They carried on for about 10 minutes teasing me and laughing and left me beleaguered. O, those were the day's. Living next door to them. Love you Kimberlea. 🥰 RIP. You'll never be forgotten. ❤️.*

“ *I'm so very sorry to lose Kim. She was a fighter as she withstood very serious health issues for some time. She had a sweet and caring demeanor and often thought about what others may be going through in their lives. She really enjoyed traveling and all her experiences that she encountered. She loved animals and bird watching. She cherished the time that she was able to spend with her children and family. Although I didn't get to see her for many years, we reconnected when she moved back to Maryland. I'll miss our talks and occassional outings. God called you home and I hope you have reunited with all those that you loved that went before you. Rest in peace and I hope to see you on the other side some day. Love, Aunt Angel*
