CM

“*Lea was one of the best friends I have ever had, we have shared lots of experiences together back in the latter years of middle school and we had some really great times together. I sincerely offer my condolences to Lea and her family, relatives and friends. She will never be forgotten and she will always be cherished along with the memories we shared together forever. This is a tragic loss and I really wished I had the chance to say goodbye. I really miss her. Anyone would have been lucky to have her. I am very grateful that I met her and I got the chance to spend time with her as much as I can at some point in my life. It will always be worth it.*”
