“ Mark was an incredible person that I completely gravitated to. Being a performer in Baltimore years ago I had always admired Marks talent and incomparable abilities with styling, makeup, hair and not to mention his beautiful voice. Mark had a bright light inside himself that shined everywhere he traveled. I will always remember him as one of the greatest people from my youth and for all the things he taught me. Thank you Mark for entering my life even for just a short time. I became a better person in this world thanks to people like you. Forever you will be missed but I believe I will see you again one day. Love Ron D’
