“ *Mary Joe changed my life through therapy. She taught me to love myself and to stick to my values. I would not be the person I am today without her. She was such a ray of light in a dark, dark world, and it is so sad that she was taken from us. She once told me to soar, and I want to tell her that I am soaring, and that I am happy. Thank you Mary Joe for being so accepting and understanding, and being powerful with your words. I will carry on your teachings to inspire others as much as I can. See you in the next life. Love always, Jalen*
