

Michael James Mirowski

October 1, 1965 - August 1, 2023

Michael James Mirowski was born on October 1, 1965 to Sophie and Thaddeus Mirowski at Leland Memorial hospital in Riverdale, Maryland. He was the youngest of five siblings at the time, but as years passed, the family grew, adding a brother and three more sisters to the clan.

Michael grew up in Millersville, MD and spent most of his life in that area enjoying the antics of his brothers, cousins, nieces and nephews, and friends.

In 1989 Michael married Nancy Birdsall. Together, they raised five children: Joey, David, Michelle, Michael, and Robbie (John). Michael was ecstatic when he became a grandfather to Conner and Taylor Crews. Michael loved golfing and fishing with his children and oldest grandchild, watching their baseball games and enjoying their company as often as he could. Michael was a loving uncle to eight nieces and nephews, and great uncle to twelve great nieces and nephews.

Anyone who knew Michael knew he had a big heart and was always willing to help when he could. He was loved for his positive attitude which he maintained even when times were tough.

Michael's mechanical career spanned the automotive, aquatic, and food packaging industrial systems industries.

The family deeply appreciates the expressions of sympathy conveyed by his family and friends and humbly requests that in lieu of flowers, donations be made to help defray funeral expenses. Donations can be made directly to the Glen Haven Memorial Cemetery in Glen Burnie, MD where Michael will be interred alongside his parents and his two older brothers, John and Joey.

“ Dear Michael,\nWe are heartbroken that you left us so soon. You had so much more life to live. We are saddened by the things you suffered these last six months and wish we could have changed them somehow. But it wasn't to be. God had a different plan for you where the pain is gone. That is our consolation. \nYou had many qualities. You were a kind and caring person, always willing to help others. You never complained or spoke unkindly of others. You were always supportive of others, never envious. We think you were lucky enough to inherit Mom's demeanor which was definitely an asset.\nWe think of all the times we had together and all the times you had with our kids. You were more of a brother to them than an uncle because you were so close in age to them. \nOur memories span a lot of years, but the extra special times were with the entire family at large family gatherings. We grew too fast and had to abandon them eventually, but what fun we had. We played a lot of cards, had a lot of laughs, and ate a lot of food! \nSome of our favorite memories were watching you as the proud Dad during one of Mikey's games or David's performances. But nothing could make you happier or prouder than the announcement that you were going to become a grandfather. That's where you and I, almost a generation apart, found real commonality. When you became "Dzia Dzia, we were able to share those special feelings and love that only Grandparents experience. \nAs the years went by, memories included your grandkids. We remember when you brought Conner to the pool and the crab feasts. Conner took control of the hose and began squirting his cousins and YOU! You had your hands full as you followed him everywhere he went with a big smile on your face! You were always chasing after him, but you never minded it a bit. In fact, you enjoyed every minute. \nWe will always have those memories, Michael and so many more. We will never let them go. You will not be forgotten. Your legacy of kindness and love will live on through your children and grandchildren. We know you will be watching over them. We wish you everlasting light and peace. \n\nLove always,\nJimmy and Jackie

“ *I fell in love with Michael when he was a pudgy golden-haired baby with an infectious laugh. As he grew he had an innate ability to fix just about anything from the can opener to the many cars he worked on. And he loved babies. When Jackie and John were born I have so many memories of him rocking them and playing with them. He adored all the beautiful children he and Nancy raised and more recently his grandchildren who warmed his heart and always brought a smile to his face. And then there was fishing; he was so in his special place with his line in the water. His excitement at a fish on his line was a joy to watch. His wife Nancy, children, and grandchildren will miss him so much, but there are so many joyful memories to sustain them in their grief. Rest in peace my dear brother.*
