“ Peter was a great friend of mine. We had many travels and great times. I first met him with his buddy Gary Nash in high school. After a while during those years Peter & I got along quite well. He went to Colorado with Don, Steve, Gary & others for a while. But I forget the timeline, all I know is everyone came back older & wiser. We rode bicycles everywhere from Md. foothills to U of Md, where our friend Keith was living. Before most of us had a car His Dad's auction cars were cool & interesting and we all loved it. I remember a Nsu prize, Vauxhall, black Mercury, & of course the Vega among others. Even after Peter & Laurie were married, we still found times to hang out, but for good reason Peter's path changed focused to Wife & Daughter. After I moved to Kentucky in 1983, except news through friends, I never had any communication since then. I must say that even though it's been over 30 years since I spent time with my old friend, the feeling of loss couldn't be stronger. I could write a lot of stories that are my memories of Peter but for now I'll say God bless and All my love to the Buchynsky family.
