“ *In this life we all have struggles, Thank God my sister don't have to struggle no more. You are my baby sister, no matter what I miss you. I will always miss the opportunity to make things better between us. I want you to know that I want your daughters to know that they still have an Uncle and other family members that will be here for them. They are not alone. May God bless you to bless us. Peace and Love. Your Big Brother Pudden.*
