“ In these moments of heartbreaking grief, I always remember that the reason we have such an empty space is because we were so blessed with someone who loved us and who we loved so beautifully that it occupied an entire part of our soul. You are so loved, so adored, so cherished...we will miss you each and everyday but know you are at peace now and wrapped in gods arms watching over all of us. Thank you for loving me and welcoming me back in to the Sabiston family with open arms after 20 years...and thank you for being the most amazing father and very best friend to your son. He is an extraordinary, kind and loving man because of you. We are truly blessed to have you as such a huge part of our lives and now we will have to learn how to live on. I pray that your love and all the beautiful memories will bring comfort to us all. You are our shining light and always will be. You are our hero! I will miss you so much! When I dated your son back in the 90's you always would come take me to lunch. I loved those times then and I loved them now. I'll miss all the fun times we spent together and will always appreciate all the love and friendship you gave to me. There will never be anyone that I will ever love to cook for more than you, anyone who will pick my crabs better than you or love as unconditionally as you love. (I'll also miss you filling up my voicemail and have some saved so when we need to hear your voice we will always have that). I think about you everyday and always will. Fly High, Shine Bright and Rest In Peace! You will forever be in our hearts and we love you always Bob...❤️❤️❤️

“ Bob made many things at Crown including Fillers, cappers, ironers, and when they weren't looking Crab tongs, and football pools. He always had a smile on his face. Bob played cards with a few friends from Crown for over 45 years, and I can say I will miss my ole friend. R.I.P. Bob.

“Dad, thank you for teaching me so many things. I can't imagine going through life not knowing how to play baseball or football, how to fish and crab, and how to navigate the waters of the Chesapeake in my boat. When I do these things, I will always think of you. Your son, Mark
