“ I grew up around you most of my life and I remember tio bobby calling me Mona lisa when i was in junior high yrs. i still remember as growing up in grandma house he would come out the room to check on us all. He would always ask us from young so when u going to buy me a car lmao to all his nieces and nephews that memory always stood with me. Or tio would come out and ask so who wants to go to the store for me and they can keep what ever change that is left over lol the struggles. tio bobby loved family he was about family. Bobby was very funny he had heart of gold. Not a dull moment when he was around us Love u so much 🍷🍷🍷🍷🍷 you will truly be missed by us all love always

“ Tio you've been in my life since I was an infant, rocked and walked me while I cried in the middle of the night when I was colic. You baptized me, showed me what comic books were; you did the father daughter dance with at my sweet sixteen. As I grew up you always gave me the best advice about life and showed me what having a great work ethic looked like. As an adult you were there for Fianna when she was a baby and baptized her, you were there for Johnfer and made sure we made it home from the hospital. I remember you saying they were the only babies to not cry when you held them. I have so many fond memories of and with you but seeing you on my wedding day during a video call after you having surgery will be at the top of my list of great memories. You were just as happy as I was and that will forever make me smile. I don't want to be sad about you leaving us so soon I want to be able to celebrate your life without feeling sadness but that is hard thing to do knowing how amazing of a person you were and how much you'll be missed. I had hopes of you getting better and meeting your new nephew I take solice in knowing you were able to at least hear him. Rest easy tio and know how much you are loved
