DL

“ I deeply regret the passing of Mr. Sedley Keith Pyne. I extend condolence to his family and friends. Sedley Pyne was a man of intellect, who demonstrated substance and style. A graduate of Jamaica College and Howard University, he was the epitome of the outstanding economist, who demonstrated impressive analytical skills. He was also a man of style: His diction always reflected the British tradition of his youth. Many of us, in good natured raillery, called him 'Lord' Pyne; to which he responded in good humor. We will miss his optimism, and many positive contributions to society. May his soul rest in peace. Cedric M. Lynch, Ph.D. Boca Raton, Florida
