“ *I just saw on Facebook that Traci had passed in early April. I want to give my condolences to Mary and Traci's extended family and friends. It has been years since I have seen Traci but did communicate through Facebook. We had such a blast in our younger years. May she finally be at peace and reunited with her mom and dad. Sending hugs.*

“ I wanted everyone to know how much I loved my sister Traci Loss I am so broken hearted and devastated by how much she suffered and that she was taken from us so soon I wanted you all to know that my sister was a caring and beautiful woman she was a little hard to take sometimes but that was her personality but if she loved you she would do anything for you and she loved her nephew John more than anything and she loved me and I loved her and she loved her soulmate Kenny with every breath she took she will definitely be missed terribly I love you Traci Loss always I know you are with mommy and daddy now you are always in my thoughts and in my heart .
