“Trudy was the best big sister I could have asked for. I always looked up to her. She was more than a sister, she was my friend and my confidant. Thank goodness we were both neat because we always shared a bedroom together and got along really well. We were very close and had a lot of good times together. I have some very special memories that I will always cherish. My most favorite are when we were growing up and our parents would take us kids to Bedford PA every summer for 2 weeks. We always looked so forward to that! Trudy and I would always take something that was special to us to show our Aunts and our Grandmother, whether it was photos, our yearbooks, etc. The memories will live on in my heart. Love, Donna
