“ Hey pops i just wanted to thank you for the things me and you did when I was growing up there was things I never knew how to do but you taught me how to do them “I remember those days when you taught me how to ride my first dirt bike” I remember the good times we had going outside working on things from lawn mowers to planting plants to building sheds to working on cars I can surely say you taught me right. There's things I wish you could've seen I wish you could've seen me going to prom and see me walk across that stage when I graduate but I always gave you hell and you always gave me hell but I surely will say I call that even but I hope your raising hell up there for me I'll see you up there one day and we will continue to rase hell together you will always be with me pops I love you and will never forget you rest easy pops

“ *Love you pop! I'll miss all the times you said, \"There is my little lady, where is my kiss\". And he would have that everytime. You will forever be loved and remembered.*
