“ Vonnie always had a smile on her face & laughter to share. I always looked forward to our iced tea time together at her apartment. We've shared so much laughter and heart to heart talks. I couldn't have asked for a better friend. I will always remember her & cherish her for her loving heart & kind words she has always has with me. We always texted each other several times a day and when I spent the night at my boyfriend's house, I always kept in touch to make sure someone was looking out for her until I got back. My favorite part of texting was in the morning when we woke up and said good morning sunshine to each other, than at night we would tell each other good night, sweet dreams. Vonnie and I always told each other we loved each other every day, several times a day. She sure knew how to lift my spirits when I felt down and out. What a wonderful, loving, caring, remarkable woman and friend. Always loved, forever missed. Love always, Char
